Reminiscences of Famous Frank Slide

J. D. Robertson, Deputy Minister of Public Works, Relates Incidents of Famous Catastrophe

Mr. J. D. Robertson, deputy minister of public works for Alberta, who was here last Friday, gave The Journal some interesting information concerning the famous slide at Frank in 1908, when 60 people were killed by the immense mass of rock which catapulted from the top of Turtle mountain at about 4 o'clock on the morning of April 20, 1908.

Mr. Robertson was engaged in Dominion government survey work in the Pass that year, and had also carried out some surveys in the Frank mine, situated in the mountain from which the slide came.

When the slide happened, he was asleep in a building about 80 yards from the western edge of the path of the slide, and he stated that his first reaction to the feeling that something unusual had happened was that he imagined he was on the station platform and that he heard a locomotive engine blowing off steam. As a matter of fact, an engine had been shunting some freight cars on the main spur, and a brakeman riding on top of one of the cars was a shorter distance from the slide than Mr. Robertson. When he was questioned as to what had happened, he said he did not know, and the suddenness and the staggering immensity of the slide appeared to momentarily numb the sense. Others who happened to be awake at the time and who escaped destruction were also questioned, but they too stated they could not tell just what happened, as the immense mass of rocks had spread itself over the valley before they realized what was taking place.

There were sixteen men working in the mine when the slide occurred, and the first thoughts of the townspeople who had survived the catastrophe were centred on their rescue and the release of those who had been pinned in buildings on the edge of the slide. The mine entrance was blocked for 150 yards, and the men inside did not know anything unusual had happened till they started for the entrance on completing their shift, except they had felt a slight bump. Finding their exit barred, one of the number figured from their location that it would save much labor if they were to tunnel upwards, and after thirteen hours labor they emerged to be greeted by a sight which made them wonder if they had been dreaming. The rescue party were still working on the blocked tunnel when the mining party emerged.

One building on the edge of the slide had been cut in two as if with an immense knife, four occupants being killed while four survived, and these were rescued. The path of the slide was very clearly defined, and from surveys taken it was found that over 1100 acres of ground were covered by rock boulders up to as much as a depth of 150 feet. The section of the mountain which collapsed extended for about a quarter of a mile along the ridge, and about 1500 feet downwards, while the depth could only be estimated. Where the present gash appears on the mountain ridge, there existed formerly two peaks.

From the way in which the rock crashed over the valley, Mr. Robertson said it indicated that the huge mass fell outwards, otherwise there would be a much greater piling up of rock at the base of the mountain than is seen. The cause he attributed (Continued on Page Five)

Worked at Coalment

Coalment mine, where 46 miners were entombed by an explosion last week, is well known to Wm Burrows, of this town. He discovered the coal seam which led to the development of this mine, and has worked in it at various intervals, the last being during 1928. It was not considered a gaseous mine, when first worked, carbide lights were used, and the coal was brought down from the face by blasting. Up to the present no definite origin has been discovered as to the cause of the disaster.

Provincial Parks Board Visit Crows Nest Lake

Very Favorably Impressed with Natural Beauty and Result of Visit Will be Communicated to Coleman Board of Trade

J. D. Robertson, deputy minister of public works for the provincial government, and chairman of the Provincial Parks Board, was in Coleman on Friday evening, in connection with the inspection of Crows Nest Lake area as a park site. He was accompanied by Mr. A. Paton, landscape and horticultural expert, of Edmonton, and Mr. Horace L. Seymour, director of town planning, arrived on Saturday, these three forming the Parks Commission.

During the week they had been inspecting various proposed sites for parks in the southern portion of the province, and Lee Lake was included in their itinerary.

Mr. Robertson and Mr. Paton were met on Friday evening by H. T. Hallwell, president of the Board of Trade, and the former gentleman expressed a very favorable opinion on the site at the lake. He was very intimate with general conditions here and the topographical features of the district, having been engaged on survey work in the Pass in 1908, and for a considerable time had felt that supervised effort should be made to make the attractions of the lake more popular.

On Saturday morning Mr. Seymour and Mr. Paton were met by the following committee: O. E. Whiteside, chairman of the parks committee; G. Pattinson, deputy mayor; G. Kellock, chairman of the industrial committee; H. Snowdon, chairman of the school board; J. H. Boulton, Dominion forest ranger; W. L. Rippon, secretary of the Board of Trade; F. G. Graham and Alex. Beck.

The party proceeded to the lake, where a general inspection was made and various features pointed out to the commission, also a drive over a proposed golf course was made, lying a short distance north of the highway and east of the lake. The scenic drive around Crows Nest Lake and the natural beauty of the park site was very favorably commented on by Mr. Seymour and Mr. Paton, who secured general information on population to be served, distance of towns, land available and other details.

The result of their visit will be communicated later to the Board of Trade here.

Mr. Seymour was accompanied by his wife and children, who were enjoying their tour of the southern part of the province, and they planned to spend the week end at Waterton Lakes Park.

During the afternoon the commission inspected the area around Lee Lake, as Mrs. Parker, who owns the land adjacent to the lake, had asked the Parks Board to inspect the site there for a provincial park.

Clans to Carry Fiery Cross at Banff

W hen the Highland Gathering and Scottish Music Festival is held at the Banff Springs Hotel, August 28 to September 1, under the patronage of H. R. H. the Prince of Wales and the auspices of the Canadian Pacific Railway, one of the highlights of this great annual gathering of the clans will be the Fiery Cross race, reminiscent of the days when the clansmen were summoned to war by runners carrying a burning torch through the glens.

Seventeen Highland regiments in Canada have entered their best pipers to compete for valuable trophies. Lads and lasses dressed in the flashing kilts will perform reels, sword dances and Highland flings. Leading Scottish athletes of the Dominion have been rounded up for the traditional Caledonian games, such as putting the "stone," and tossing the caber, as well as the more usual track and field events.

The musical programme this year will be concentrated on the songs of Robert Burns and two other great Scottish poets. The pipe band will be presented on a unit entitled "The Ayrshire Piping Men," written by J. E. Middleton, with arrangements by Hesley Wilson, distinguished Canadian composer, and the other, his own creation, "The Jolly Beggars." The Atholl Highland Light Infantry, now presenting a two-month season of Canadian and Old English operas at the Banff Springs Hotel, will supply the artists for these productions.

Education of Soldiers' Children Act

Art W'skelynn, the Provincial Secretary of the Canadian Legion, B.E.S.L., in Alberta, has asked this office to be kind enough to publish the terms of the Alberta Provincial Act passed this year under which applications might be made for assistance to the children of ex-soldiers who require aid in obtaining further training in life as follows:-

- (1) The educational facilities which the Board may authorize shall be:
- (a) Academic courses up to obtaining the standing required for entrance into the University of Alberta, or for a second class teacher's diploma.
- (b) Technical, agricultural, and commercial courses in those Institutes which are covered by the Inspectorate of the Departments of Education and Agriculture.
- (c) Domestic, Science and kindred subjects covered by the Inspectorate of the Department of Health.
- (2) The Board is only empowered to grant assistance to children who have attained Grade 8 (Eight) standing or higher.

Further information can be obtained from any branch of the Canadian Legion, B.E.S.L., in Alberta, or direct from the Registrar, The Education of Soldiers' Children Act, P. O. Box 667, Edmonton, Alberta.

Mr. and Mrs. J. Emmerson and family returned on Sunday from several weeks holiday spent at Couer D'Alene, Idaho, and other points in the western states.

\$100 or Six Months for Fishing in Closed Stream

Fishing is going on in closed streams, according to information given to The Journal, which is punishable by fine and confiscation of fishing tackle. The public should co-operate with the game guards and the police in putting a stop to this, and lay information in every case they discover. This is the only way to deal with those who break the law. At Nasuton last week two men were fined \$100 and costs, or in default six months imprisonment. Another man was fined \$50 for fishing without a permit.

Anderson Won Pattinson Cup

Coleman Horning Society's pig pen flights were brought to a close with a flight from Brady, Montana, on Sunday. First in was Chas Makin's "Flying Streak;" second, Pryde's "August Dun;" third, J. Anderson's "Cock o' the North;" fourth, Roughhead's "Comet;" fifth, Sudworth's "Thundercloud." Dewar's persistent hard luck was again in evidence, his birds failing to check in.

J. Anderson won the Pattinson cup for the best record of the season; Chas. Makin won the shoes donated by Anthrobus' Shoe Store, and also a pair donated by Wm. Bell of the Grand Union hotel.

The committee thanks those who donated prizes during the season, which helped to create greater interest in the competitions.

Dr. Wallace, president of Alberta University, and Mrs. Wallace, visited on Sunday with Mr. and Mrs. Whiteside. They were on a tour of the Banff Windermere route and left here for Waterton for a short holiday.

Read the article entitled The Russian Menace on page two.

IN MEMORIAM

In Loving Memory of Arthur Wilson, who passed away on August 24th, 1929, in his 29th year.

"Thy voice is now silent, thy heart is now cold,

Where thy smile and thy welcome oft met us of old;

We miss thee and mourn thee in silence unseen,

And dwell on the memories of joys that have been.

- Inserted by his loving wife and children, and his parents and brothers.

White Favored by Coleman Local as Union President

Final Results Will Not Be Known Till Later This Week—Result is in Doubt

Result of balloting for officers for District No. 1, Mine Workers Union of Canada, on Monday, were as follows:

For president, Wm. J. White, 306; James Sloan, 157.

For vice-president, Ludwig Maurice, 191; Hugh Williams, 125; J. Pontorola, 61; A. Cacchioni, 51.

For secretary-treasurer — Major Hyslop, 292; M. Carmichael, 156.

For board member, A. Fraser, 264; Evan Morgan, 171.

For tellers, three to be elected, Wm. Chapman received 275 votes, John Price of Bellevue coming next with 184.

There are approximately 3500 votes in the entire district, and the final figures are awaited with keen interest.

The vote at Blairmore gave Sloan 179, White 73. At Lethbridge Sloan polled 188, White 171. No results have been received from the northern camps, and the result is very much in doubt. Many men in the various locals did not vote.

Bellevue voted as follows: For president, Sloan 81, White 12; vice-president, Maurice 44, Pontorola 9, Williams 7, Cacchioni 18; secretary, Carmichael 45, Hyslop 39; board member, Fraser 51, Morgan 32.

[Mr. and Mrs. A. S. McIntosh motored to Winnipeg to spend their holidays, returning this week.

John Howarth of the McGillivray Co. office staff is spending his holidays at Lethbridge.

Mr. and Mrs. Sid. Short recently spent their holidays on a motor tour, visiting various places in the western States.

Five cars of Coleman people journeyed to McBain's Lake, 77 miles west of Coleman, to spend Sunday, and state it is quite a pretty summer resort.

Last evening Mrs. L. Sist held an enjoyable party in honor of Veronica Janatsik, at which a number of her former schoolgirl friends were present.

The Russian Menace

Soviet Russia presents a menace to Great Britain, Canada, the United States, in fact, to all countries which depend for their prosperity upon a world export trade. The Russian menace of today is not one of impending war fought by armies and navies, rifles, cannon, tanks, bombs and aircraft, but of a great economic struggle for world trade, and of the countries most likely to be seriously affected by such a struggle the British Commonwealth of Nations, and the United States come first.

Prior to the Great War it was frequently contended that wars between nations were brought about by armament manufacturers and captains of industry seeking territory within which they might enjoy more or less exclusive rights of trading. The Great War itself, was, in the final analysis, caused by Germany's ambition to secure larger world markets and a greater colonial empire. The German navy was created for the express purpose of challenging the British navy with this very object in view. Germany failed, but in the Great War the old Russia of Czar Nicholas disappeared, and in its place there has arisen the Soviet Republics dominated by the communist workers.

The Soviet leaders are absolutely ruthless in their methods, inspired by the ideas of fanaticism, and spurred on by a belief that their ideas of government are the only right ones leading to freedom of the masses as opposed to all other forms of government which they hold are under the control of the hated capitalist classes. To the Soviet leaders all methods are right and fair if they will serve to accomplish their purpose. Hence the nature of the economic struggle now confronting the world.

Having seized the property of all the landed and capitalist classes of Russia, having declared it a crime for any person in Russia to hold views contrary to those of the Soviet authorities, and having imposed ultra-communist ideas upon the whole of Russia, the Soviet leaders are now utilizing and working these seized, or stolen, properties with what is to all intents and purposes convict labor. And if there is any shortage of such labor, thousands more are made readily available by trumped-up charges of treason, espionage, and disloyalty to the Soviet, and without trial are thrown into forced labor camps.

Coal, pulpwood, agricultural products, notably wheat, produced under such conditions at a cost against which the producers of no other country can successfully compete, are now beginning to be thrown into the markets of the world. Some tens of thousands of tons of Russian coal have been shipped into Canada; scores of shiploads of Russian pulpwood are being sent to the United States to enter into competition with Canadian pulpwood, pulp and paper; Russian wheat is going to England where it displaces hard Canadian wheat as it is largely of the same hard variety.

And this is only the beginning. The Russian Soviet Government has expended hundreds of millions of dollars within the last few years in the purchase of the most up-to-date agricultural machinery. It has granted concessions to Henry Ford to establish a great plant for the manufacture of tractors in that country; it has engaged the services of the most noted railway and agricultural experts to direct operations in Russia, and has sent commissions of its own experts to foreign lands, and particularly to Canada and the United States to study methods of agriculture and to make application to making an economic bid for the trade of the world, and based on methods and costs of production with which other countries with their greater liberty of the individual and higher standards of living cannot begin to compete.

Such, in brief outline, is the serious nature of the menace to Canadian and United States business in the Russian situation. United States labor and United States industrialists are strongly battling the unfair Russian competition. Canada must do likewise, for while a country may be willing to face the competition of other countries, both at home and abroad, upon equal terms, no country can compete with conditions such as those now prevailing in Russia and survive. It is apparent that Russia, having failed in its political attempts to sovietize the world, has now embarked upon an economic conquest.

Under these circumstances, the approaching Imperial Economic Conference, in London, England, is fraught with greater importance than any previous Empire Conference. Hon. C. A. Dunning announced that his budget was an indication of the spirit in which the King Government intended to approach this conference. In the King Government, however, defeated, the responsibility now rests with Premier Bennett, in collaboration with Premier Ramsay MacDonald, and the other Dominion Premiers, to work out an economic policy for the Empire which will enable all its component parts to successfully resist the Russian menace, and at the same time develop intra-Empire trade to its fullest possible extent. Every Canadian will wish Mr. Bennett well in his important task.

Deceiving the Customer

These Berry Boxes Were Worse Than the Standard False Bottoms

In the "museum" of the Dominion Fruit Bureau at Ottawa, there is a full set of twelve blueberry boxes, each box of which is nearly half-filled with blocks of board, bits of field trash, and old wood. It was picked up by the inspection service through the complaint of a purchaser on a large Eastern market. To the customer to whom these boxes were sold it was a case of "caveat emptor" with a vengeance.

The French Government is being urged to rivet to the top of the Eiffel Tower a 22-foot flag tower, making it again the world's loftiest structure, a position now occupied by the Chrysler Building in New York.

He... "About a half mile from the crossing bridge on a terrible burst of speed to beat the train to it."

Sixty... "And did he get across?"

He... "Yes, they put one on his tombstone."

Crosses Canada On Bicycle

Young French-Canadian Wins Wager Of \$1,000 On Reaching Vancouver

Noel March, young French-Canadian from Halifax, wheeled his tandem bicycle into Vancouver, on August 9th, and won a wager of \$1,000.

March left the Atlantic coast April 15, with \$15 in his pocket and a supply of food on the crossbar of his bicycle. He was to reach the Pacific before midnight, August 15.

Notwithstanding the fact that he wheeled his machine into a ditch near Lytton and spent two weeks in a deserted shack with an injured back and leg, the wiry little Canuck reached his goal one week ahead of time.

Have Minard's Liniment on your shelf.

Production Of Cordage

According to a report by the Dominion Bureau of Statistics, the total value of products in the rope and twine industry in 1929 was \$11,798,466. This compares with \$10,839,961 in 1928, the increases in value being \$958,501, or 8.84 per cent.

An honest man is one who says, "I don't know," instead of saying: "Look it up yourself, son, and you'll remember it better."

A good home is worth all you put into it in time, money and effort.

Agricultural Wealth Of Canada

Gross Agricultural Wealth Of Dominion Nearly Eight Billion Dollars

The gross agricultural wealth of Canada for 1929 is estimated at approximately \$7,975,633,000 in a summary published recently by the National Revenue Department.

Last year the total revenue from agriculture was \$1,067,218,000, of which Ontario accounted for \$569,434,000; Quebec, \$320,422,000; Saskatchewan, \$305,308,000; Alberta, \$228,583,000; Manitoba, \$134,095,000; British Columbia, \$55,235,000; Nova Scotia, \$32,558,000; New Brunswick, \$39,854,000, and Prince Edward Island, \$26,723,000.

The two principal items which go to make up the total of agricultural products are field crops, valued at \$797,750,000, and dairy products with an estimated value of \$290,000,000.

Farm animals are third with a value of \$261,437,000, and poultry and eggs fourth with a value of \$109,346,000.

The two principal items which go to make up the total of agricultural products are field crops, valued at \$797,750,000, and dairy products with an estimated value of \$290,000,000.

Was Run Down Now Well Again

Takes Pleasure In Recommending Dr. Williams' Pink Pills

To the woman in the home illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she is easily tired, she has no appetite, and she has no appetite. In a word she is anaemic and badly needs help—the health that only Dr. Williams' Pink Pills can give. These pills contain rich red blood which brings new strength and energy to weak, despondent nerves. Concerning them, Mrs. Pauline G. Gifford says: "I was badly run-down, slept poorly, and awoke as tired as when I went to bed. My appetite was failing. I took Dr. Williams' Pink Pills and they completely renewed my health."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Remarkable Invention

Tele-peseter Designed To Speed Up Newspaper Production

Successful use of the teletypesetter, one of the newest inventions designed to replace the newspaper manager, has been published by West Chester County Publishing Co., Inc., White Plains, N.Y., headed by J. Noel Macy.

Newspapers in the country are using the instrument, by which news stories are sent out on telegraphic impulses and almost simultaneously translated into type, ready for publication.

Readers of the Yonkers Statesman, Vernon Daily Argus, New Rochelle Standard-Star, Post Chester Daily Item, Tarrytown Daily News, Ossining Citizen-Sentinel and White Plains Daily Press thus are enabled to pursue late news "breaks" that heretofore have been possible only through a thing of the past—time.

The instrument was invented by Walter W. Morey and developed by the Collaboration of Edward E. Kleinschmidt, Frank E. Gannett and others.

Miller's Worm Powders were devised to promptly relieve children when sick from the ravages of worms. It is simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive stomach. They are thorough and painless, and though in some cases they may cause vomiting, this is an indication of their powerful action and not of any nauseating property.

British General Election

Mrs. David Lloyd George, speaking at a garden party in Wales, prophesied that there would be a general election in the coming autumn. Her hearers were much intrigued by the statement, in view of the key position occupied by the speaker's husband, Liberal opponent in Parliament and Labor Government.

A letter carrier invented the first screw-propeller for steamships; an undertaker invented the slot-machine telephone; and a barber first thought of fire-exit.

Air Pilot—"By Jove, I forgot to give you a parachute."

Ginsberg—"All right. It ain't goin' to rain."

The Handy Bottle

Minard's is the sure relief in the Handy Bottle. For strains, burns, bruises, boils and blisters.

SHAMROCK V.

Sir Thomas Lipton's yacht "Shamrock V." repeated from Horta, Azores, was last seen on May 20th, by steam yacht "Erin," which was escorting it to Newport, U.S.A., for America's Cup race, and lost sight of in rain squall, but now safe.

Abolish Tariff Advisory Board

New Body To Be Constituted Under Authority Of Act Of Parliament

The Tariff Advisory Board has been abolished and will be replaced by a new body to be constituted under authority of an act of parliament. Announcement to this effect was made by Prime Minister R. B. Bennett.

The board now existing was constituted by an order-in-council, and not through statutory legislation, in April, 1926. This order-in-council has been cancelled by the new government, and the body to be created will function under authority granted to it by both the House of Commons and the Senate. Legislation for the establishment of the new board will be introduced shortly, and will likely be introduced at the next session of parliament.

The abolished board began its work early in May, 1926, with Senator Geo. P. Graham as chairman, and Alfred Lambert, Montreal, with D. G. McKenzie, now a member of the Manitoba government, as associate members. Following the resignation of Senator Graham, W. H. Moore became chairman of the board; and Mr. Lambert and Mr. McKenzie who resigned, were replaced by Senator Raoul, Montreal, and Frank Jacobs, De Winton, Alberta. Mr. Moore remained on the eve of the general election, and the constituency of St. Catharines, in which he was elected as Liberal Candidate. The chairman of the board was in receipt of a salary of \$10,000 per annum, and his colleagues \$4,000 yearly.

Relief From Asthma

Who can relieve the complete relief from suffering which follows the use of Dr. J. D. Kinsler's Remedy?

What a joyous expression of joy that comes when its soft and gentle influence relieves the tightened chest, and abates the sharp, hacking, rattling affection, a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Empire Preference

London County Council Gives Preference To Empire Products

There is special interest for Canadian farmers in a communication received by the London County Council of Agriculture from London, England, a buyer of foodstuffs.

The London County Council has laid down for some time past now that preference shall be given to Empire foods. In furtherance of this policy it has given permission to those responsible for buying foods to pay up to 10 per cent more for an Empire article than for a similar quality foreign product, it states. The London County Council provides food supplies to over 80 large hospitals and 70 institutions of various kinds.

For all Skin Abrasions—Minard's Liniment.

B.C. Industrial Conditions

The industrial payroll of British Columbia for 1929, as reported at \$192,002,240, was the highest record, in the annual report of the provincial department of labor, the most accurate thermometer of industrial conditions in the province, as issued recently. The total is an increase of \$3,994,462 over the 1928 figure.

A thousand American chefs have chosen petit marmite, poitrine de volaille, pommes de terre, olivette, bobeche surprise, and Mocha filtre for their annual banquet.

In other words, soup, fried chicken and hashed potatoes, cream and coffee!

Seedy (reading) — Say, Hank, what's er haberdasher?

Her Three Children Troubled With Diarrhoea

Mrs. Leo Laprade, Lester, Man., writes: "My three little children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Live Stock Sales

New System Of Reporting Sales and Prices Has Been Applied

A new system of reporting live stock sales and prices has been put into effect in the Stock Yard and Market Reporting Services of the Dominion Live Stock Branch. The purpose of the new system is to afford a more adequate indication of sales and prices in relation to beef cattle coming on the market. The principal change brings to the top of the list the section of beef cattle in greatest demand, providing a clear indication of the volume and price range of the popular light cattle, and providing the producer with a more adequate indication of grade and price than was possible under the old system.

Earthquake Area Extended

Heavy Loss Of Life Reported On Shores Of Caspian Sea

A terrific earthquake killed 500 persons and injured 4,000 others on the northeast shore of the Caspian Sea, Russia, according to the London Morning Post states.

The towns of Tchapevo and Vritzky were reportedly destroyed.

The bodies of 30 children were recovered from the ruins. A child's home at Tchapevo was destroyed by the shocks, the Morning Post reported.

The dispatch won 200 houses at Tchapevo were razed, and the church destroyed by the quake.

The Ural River was reported to have flooded the town.

THREE DELEGATES APPOINTED FOR LEAGUE MEETING

Ottawa.—Canada will be represented at the next meeting of the assembly of the League of Nations by Sir Robert Borden, Senator Thomas Chapais and Hon. Mrs. Mary Irene Farby. It was announced here recently. The assembly meets in Geneva early in September, and before that date will be meeting of the council of the League. Canada's representative on the council will be Sir Robert Borden as leader of the Canadian delegation.

Sir Robert Borden, Canada's wartime premier, has long been a staunch advocate of the league. He was one of the original signatories of the League of Nations covenant in 1919, out of which grew the league assembly and the council.

Senator Chapais, who resides in Quebec, has won distinction by his historical writings. He is the author of a number of books. He was for some time professor of history in Laval University. He was a minister without portfolio in the Taitton government of Quebec, and leader of the government in the legislative council back in 1893. He became a senator in 1919.

Hon. Mrs. Mary Irene Farby is minister without portfolio in the Alberta Provincial Government. She represents Lacombe in the legislature. She was provincial president of the United Farm Women of Alberta, for four years. For two years she was a member of the board of governors of Alberta University. In the last two provincial general elections she has been returned as a candidate of the United Farmers of Alberta.

Canadian Butter For China

First Test Shipment Of Dairy Butter Will Go Forward On Sept. 4th

Victoria, B.C.—Close on the heels of a successful trial shipment of B.C. fresh milk to the Orient comes word of a special order for a shipment of prime dairy butter to Hong Kong, now being arranged through the Department of Agriculture.

On September 4, the first test shipment of butter within the knowledge of the department will cross the Pacific for the Far East. If the shipment is successful it will be followed by the opening of a considerable market for B.C. butter. The prospect of landing fresh dairy products from this coast has attracted wide attention in the Orient and will develop on a most extensive scale if the results warrant it.

The butter will be shipped to Hong Kong in care of the Canadian trade commissioner at that point.

Calgary Cadets Win Trophy

High School Cadets Capture United Empire Trophy At Ottawa

Competitors from Ottawa, Ont.—Calgary high school cadets won the United Empire trophy open to the cadet team making the highest aggregate score in the Tyro MacDougall, bankers and cadet matches at the Dominion of Canada Rifle Association meet here. The Culligan scored a total of 973 points, as against 966 for Hamilton, Ont., Central Collegiate "A" team, and 963 by Winnipeg Highland Collegiate.

Infantry Paralytic in East

Oshawa, Ont.—Two deaths from infantile paralysis were reported by the health authorities here recently. The victims were Eddie Curtin, 10, and Albert W. Ferguson, the same age. No new case have been reported by medical officials, and the number now remains at 12. There has been no change in the situation in East Whitby township.

Adopt Rotary Plan

Windsor, Ont.—With the object of providing at least some employment for its members, and to tide them over the present period of depression, the local bricklayers' union is attempting to introduce a "rotary" system of employment on construction work in the border cities. Thus, each man would work one week and be idle the next.

Mollie Picture Operator Killed

Edmonton, Alberta—V. A. Crawford, Westlock, Alberta, photographer and motion picture operator, was killed instantly when his car swerved off the roadway a mile from Giviere Di Barre, and upset in the ditch. According to Alberta provincial police reports, Mrs. Crawford escaped serious injury.

W. N. U. 1851

Tribal Unrest Spreading

British Forces In India, However, Appear To Be Handing Situation

Peshawar, India.—The spirit of tribal unrest appears to be spreading on the northwestern frontier, with British forces tightening the defense by increasing aerial bombing operations and rushing fresh troops northward.

Most of the Afghans who have been besieging this strategic city for a week have withdrawn under constant bombing, but meager reports from the countryside indicate that they have spread in all directions and that all branches of the tribe have taken up arms.

An indeterminate number of Afghans have joined the Afghans, a party identified as Massassaus attacked Badama Post, and the Chankemals were on the war path until the air force informed them that their own villages would be bombed unless they ceased their depredations.

Peshawar itself was quiet, and apparently most of the assailants have withdrawn under heavy bombing. One party attacked the cantonments, however, inflicting a scattering rifle fire that did no damage. They withdrew at dawn.

Meanwhile, fresh troops arrived on an armored train from Lahore. The city gates were opened for it, but ordinary trains must stop at Nowshera, and the passengers continue here by taxicab.

The six squadrons of army airplanes on duty in the sector are credited with a breaking up the plans for a mass attack on Peshawar. In one day these machines dropped 6,000 small bombs, and they have made daily attacks on various groups. As one instance they spotted the 1,500 Massasaus who attacked Badama Post, and wounded 20 of them.

Will Oppose Stevens

Independent Labor Candidate Announces His Intention Of Running In East Kootenay

Cranbrook, B.C.—Opposition to Hon. H. H. Stevens is the by-election in East Kootenay, where the Minister of Trade and Commerce will seek election shortly, cropped up here. William Robson, dismissed from the Provincial Labor Bureau on Monday, announced he will oppose Mr. Stevens at the by-election as an independent Labor candidate.

Mr. Robson has been identified with Labor interests since 1889, and was formerly of Nanaimo. He has been employed with the Labor Bureau for the past seven years. A section of district Liberals will be determined at a meeting to be called within a few days.

M. McLean, of Fernie, Conservative candidate in East Kootenay in the recent election, and resigned to make way for Hon. H. H. Stevens, defeated in Vancouver and given a portfolio in the Bennett administration.

Massey Interviews Premier

Ottawa, Ont.—Following a three-quarter hour conference between Premier R. B. Bennett and Hon. Vincent Massey, in the prime minister's office in the East Block, Mr. Bennett stated, "I asked Mr. Massey to see me, and we had a very satisfactory talk." The prime minister went no further than that, and Mr. Massey, when leaving, declined to discuss the visit.

Wins Scholarship

Lloydminster, Sask.—Delbert Clarke, of Lloydminster district, graduate from the University of Saskatchewan with high honors in history and economics, has been awarded a \$500 scholarship for 1930-31 from the Canadian Pioneer Problem Committee. The award was made from Wm. S. University, Kingston, who will study history under Prof. A. S. Morton, of the University of Saskatchewan.

Across Continent In 12 Hours

Valley Stream, N.Y.—Beating by more than two hours the transcontinental air record Col. and Mrs. Charles A. Lindbergh took from him last April, Capt. Frank M. Hawks flew from Glendale, Cal., to Curtiss Field recently, in 12 hours, 25 minutes and three seconds.

B.C. Miners Entombed

Merit, B.C.—One man was killed and 30 are entombed as the result of an explosion in the Coalmont Colliery, Coalmont, near Princeton. Word reached here of the disaster, and plans are being considered to send men to help free the entombed miners.

Plane Saves Life

Burlington, Vt.—Anthrax antivenin, sped here recently from Montreal by aeroplane, and dropped by parachute, saved the life of a bush-factory employee suddenly stricken with the deadly, fast working disease.

Alberta Protests

Claim That Foreign Immigrants Are Being Dumped In Province

Edmonton, Alberta—C. M. Johnson, superintendent of the Soldier Settlement Board here, has been asked by the Department of Labor, at Ottawa, to investigate charges that 200 German immigrants were "dumped" in Alberta last week. The inquiry has been requested as the result of a telegram of protest sent to Premier R. B. Bennett by Hon. George Hoadley, acting premier of Alberta.

Denial of the allegations has been made by the steamship company concerned, and by the editor of "Der Hohler," German newspaper here, Walter Wimmer, secretary of the association of German-speaking workers. Insists the charges he leveled are well-founded.

UNEMPLOYMENT SURVEY IS MADE BY GOVERNMENT

Ottawa, Ont.—Hon. G. D. Robertson, Minister of Labor, announced recently, that the government is making a quick survey of unemployment conditions in Canada, and that the employment service council will be called to meet here on August 21 to consider information which will have been gathered by that time.

After the council has discussed the situation disclosed, recommendations will be made for consideration of the government and will form a basis for unemployment relief measures to be submitted to parliament at the special session early next month.

In the last day or two, the minister stated, the Department of Labor has communicated with all the provinces and with the mayors of municipalities with population of 10,000 or more, asking them to advise the department as near as possible the extent of unemployment and to estimate what the situation will be during winter. They have been asked to send the information in within 10 days, so that the department will be able to sift the data and have it ready for the meetings of the unemployment service council.

Wheat Exports Increase

Nearly 900,000 Bushels Exported From Vancouver In One Week

Vancouver, B.C.—Nearly 900,000 bushels of wheat were exported during the past seven days, according to the weekly report of the Vancouver Board of Harbor Commissioners.

The actual total for the past week was 869,100 bushels.

The export this season to date is 1,570,285 bushels, as compared with 1,262,000 bushels at the corresponding date last year. The exporters had in stock at 5 a.m., a total of 6,649,500 bushels, and the railways had 1,516,300 bushels on British Columbia divisions, or in terminals here. There are ships in port for 170,156 bushels.

Injured In Car Collision

London, Ont.—Hon. Donald Sutherland, Minister of National Defense; Franklin Smoke, M.P. for Brant, and J. L. Stansell, defeated candidate in Norfolk-Eglin, were slightly injured when their automobile struck a truck and overturned in a ditch.

Compulsory Military Training

Wellington, N.Z.—A bill for temporary suspension of compulsory military training has been introduced in the House of Representatives by the government. It is intended as a measure of economy.

GLOBE CIRCLING FLIGHT ENDS IN CRASH

John Henry Mears, of New York, who took off from Roosevelt Field in globe-circling flight in an attempt to beat Graf Zeppelin time for the same trip but crashed at Harbor Grace, Newfoundland. His plane was wrecked.

Fire Destroys Quebec Village

Property Damage Is Estimated At \$200,000

Mosson, Que.—Between 500 and 600 persons are homeless, and nearly 50 houses destroyed, such is an estimate by Rev. Monseigneur Gauthier, parish priest of Mosson, of the conflagration which swept this little town recently.

Mme. Joseph Lafamme died during the afternoon and although not injured in the fire, it is believed the shock hastened her death. Property damage was estimated at \$200,000. No one was killed and no one received serious injuries in the blaze.

This well-ordered community on the banks of the L'erie River, 21 miles from Ottawa, was bewailing a disaster of such character difficult to describe. An area of one quarter of a mile square, which this morning housed nearly 120 families was simply a heap of smouldering embers. Red tongues of flame licking up from piles of charred debris spoke eloquently of the disaster which had befallen Mosson.

Restrict Immigration

Dominion Government May Take Steps To Regulate Entries

Ottawa, Ont.—Indications are that steps will be taken by the Dominion Government to restrict immigration to Canada. While no official announcement was made at the conclusion of a meeting of the cabinet, it is understood that the restriction of immigration was under discussion.

Any action taken, it is believed, would be aimed at the restriction of newcomers from European countries so as not to add to the unemployed. It is rumored that the so-called railway agreements respecting immigration will not be renewed, especially under present provisions. A statement on the subject of immigration may be issued shortly.

SAYS JUSTICE TO ALWAYS GOVERN ADMINISTRATION

Ottawa, Ont.—Hon. Arthur Savage, postmaster general, in a statement declared that "justice, honesty and economy" would be his policy in administering the post office department.

The text of the statement of the postmaster reads:

"Justice, honesty, economy, such shall be my policy in the administration of the post office department. The law which governs us shall be respected with discrimination and the regulations shall be observed with the greatest discretion."

The regulation states that "after conviction of selling liquor or keeping liquor for sale, or of drunkenness, or for being found drunk twice within 12 months, a person shall not be entitled to purchase liquor for three months after conviction."

"I shall follow to the letter the policy of an honest man and a good Canadian, directed by the head of the government; a policy of peace, concord and of sound protection which will permit the rational development and utilization of all the desirable resources of our country."

"The employees who have, without reserve, conformed to the law, deserve the confidence of the government and who have impartially shown the respect due to the political authorities or their accredited representatives have nothing to fear from me."

"I shall make a distinction between the latter and those who have constituted themselves the active agents of their party or the carriers of lies and infamous calumnies. It would be unjust and cruel, for instance, to put on the street, without reason, a good father of a family who has been in office for a number of years and who might find it difficult to work elsewhere."

"It is, I believe, in the post office department that certain classes of employees are the most exposed to indulge in political partisanship."

"I am, and will be, guided in regard to everything concerning my department, in order to avoid, as far as possible, injustices and errors. I am not infallible but if I should commit an error, I shall do my best to repair it."

"The assurances given to me by the deputy minister, whom I have known for a long time, as well as by the heads of other branches, justify my belief that I shall be able to carry out, with success, the administration of my department."

"I also greatly appreciated the act of courtesy and friendliness of my predecessor, Hon. Mr. Venot, who came loyally to call upon me and to give me appropriately certain important information."

IS SATISFIED WITH RESULTS OF WHEAT PARLEY

Toronto, Ont.—Expressing complete satisfaction with the result of the conference of western premiers and the final conference at Ottawa, when officers of the wheat pool, the provincial premiers and Prime Minister Bennett discussed the financing of Canada's grain, Hon. J. T. M. Anderson, premier of Saskatchewan, left for Regina.

"A fine time," was his first word. "We are perfectly satisfied with the result of our visit in the east. No, I have nothing further to say about the wheat situation; it has been pretty thoroughly done up the past two days."

"In our last conversation you will recall I spoke of some new plans. First is the establishment of a correspondence high school course whereby children of settlers and farmers in remote areas — any child more than four miles from a high school — may take the courses by mail and write off the examinations each year at the nearest examination point."

"We hope by this that many more will be able to avail themselves of higher education than is possible at present. Along the same line we are instituting this fall the first correspondence high school for farmers and ranchers sons so they will be able to assist in mining development in the north."

"This falls in line with our assumption, this October first, of our own natural resources. We are planning to develop our resources to the best of our ability and will leave nothing undone which we believe should be done."

Red Menace In China

Communists Advancing Against Nanking and Other Important Points

Nanking, China—Communists were reported advancing against this Nationalist government capital and the sister cities of Hankow, Hanyang and Wuchang, 600 miles up the Yangtze River from the sea.

This city was virtually defenceless and appeared doomed should the communists capture it. Few defenders remained within the 32-mile wall circling the capital, practically all troops having been drawn to fronts on which the government and northern rebels are fighting for supremacy in China.

Uneasiness was felt here as peasants turned Communists and appeared in surrounding towns armed with rifles.

Many suspected Communists were summarily executed at Hankow. Thousands of terrified Chinese poured into the city, frightened from their outlying homes by the invaders.

Eskimos Bound For Cuba

Make Journey By Dog Sled and Canoe From Arctic Circle To Southern Climate

Burlington, Iowa—Three Eskimos and their Canadian guide who left the Arctic circle this year, and hoped to reach Cuba next year, resumed their journey by canoe today, after an overnight stop at Burlington.

The Eskimos, Charles Platinashuk and his two sons, led by Frank O'Grady, said they left The Pas, Manitoba, March 21, 1929, went to The Arctic Circle, returned to The Pas, and then set out for the south last winter by dog sled.

They continued by sled, they said, until the ice broke up. At Granite Falls, Minn., they launched their 18 foot canoe, and have travelled by that mode since. They expect to reach Havana early in 1931.

Makes Altitude Record

Regina, Sask.—Creating what is believed to be a record for western Canada, and breaking the Regina altitude flying record, P. B. Keffer, of the Regina Flying Club, climbed to an altitude of 18,250 feet over the city Tuesday afternoon, August 12. As Regina is about 1,800 feet above the sea level, Pilot Keffer actually reached the height of more than 20,000 feet.

Nebraska Tourists See West

Winnipeg, Man.—On their way to the Pacific Coast, 175 "corn huskers" from Nebraska, invaded Winnipeg en route to Vancouver. Travelling over the lines of the Canadian National Railways the "corn huskers," who are gathered from the rural population of their native state, are seeing for themselves the glories of Western Canada.

Leading business men of Japan, arriving at Vancouver recently from the Far East, aboard the Canadian Pacific liner "Empress of Canada" received an official welcome from Mayor W. H. Malkin, and representative Canadian business men during their two-day stay in the Canadian west coast port. The Japanese party is headed across Canada on a national tour if inspection, then going to New York to visit principal cities of the United States, returning to Victoria, B.C., September 4th, by way of San Francisco and Seattle. The party includes prominent merchants, department store owners, Soichiro Sato, chief engineer of the Japan Artificial Ice Company, and Shigetaro Matsui, advisor to the Hiroshima overseas development association. While in Canada and the United States they will make close studies of the industries and commercial ventures in which they are interested.

NOTES AND COMMENTS

You cannot garner a crop of potatoes unless you plant seed, and follow up with careful cultivation.

Likewise, you cannot obtain results in any line of human endeavor unless you plant the seed of energetic effort backed up by persistent work towards the goal you wish to attain.

The results, or lack of them, are similar in each instance. Beneficial results of a community nature can only be obtained by joint community effort. Certain duties of a community nature are enforceable by law, such as paying taxes for maintaining schools and carrying out local improvements.

For the furtherance of projects of a community nature, other than those which people are compelled to contribute to, voluntary support is necessary.

It is to promote and encourage this voluntary effort that progressive centres of population co-operate in the support of a Board of Trade, in paying a small annual membership fee and giving time from regular business duties towards a desired objective. The more we put behind our voluntary efforts to bring about improvement the better chance there is of success along these lines. As individuals or as communities, as we sow shall we reap. It is the inevitable law which you cannot sidestep.

The visit of the Provincial Parks Commission to view the proposed park site at Crows Nest Lake gives a lead towards something definite being accomplished. The cooperative enterprise of Coleman particularly will have ample opportunity to show itself and the lead in enthusiasm and support must necessarily come from the centre which is closest to the proposed park. There is a grand opportunity for a pooling of community effort.

A state of mild confusion exists in the ranks of the mine workers of the province, which will necessitate vigorous leadership to straighten out. Several years ago the Mine Workers Union of Canada was formed, which consisted of those who desired a Canadian union instead of paying dues to the Mine Workers Union of America. A number remained members of the American union, and continued paying their dues to this day. The existence of the two unions resulted in splitting the forces of the workers, so that uniform agreements between the miners and operators were not possible. About a year ago the Communists under the name of the Unity League began their campaign to secure control of all the mine workers in Alberta and the election of district officers this week indicates that they have obtained a majority vote for their nominees in the Pass towns.

There are many mine workers who are so "fed up" with the existing state of affairs that they did not cast a ballot in Monday's election, whilst others voted only for one candidate for a minor office, declining to vote for the offices of president or vice-president.

The type of leadership which the Communists would foist on the miners is not encouraging, with the result that instead of unity being obtained, there appears to be more of a rift than ever. Most mining companies have individual agreements with their men, owing to the fact that the companies will not recognize as representatives of the men officials either of the Canadian or American union.

Instead of Unity, men belonging to the existing union will not pay dues to an organization governed by the Communists, no matter under what name they try and camouflage themselves.

So scurrilous had the Western Miner become in its abuse of those whom the Communist party could not bludgeon into compliance with their views, that the Lethbridge Herald printing department refused to print any further issues. A paper which is printed merely for abuse and vicious propaganda cannot last, and the Western Miner will pass the way of similar publications.

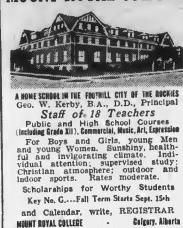

Cooler weather, people returning from holidays, the advent of schools re-opening, remind one that we are shortly to commence on the last lap of 1930. Nearly eight months of the year have passed with incredible speed. The Crows Nest Pass towns have survived one of the quietest periods in their history, but there is a promise of improved conditions which give a brighter outlook. The man who rails against conditions overlooks the prime importance of adjusting himself to conditions very much different to those of the previous few years. We must change our ways to meet changing conditions.

For Baby's Bath

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft soothing oils in Baby's Own Soap make it specially suitable for babies, and its clinging fragrance reminds one of the roses which help to inspire it.

"It's best for you and Baby too!"

Theatre News

For this week-end a very fine educational picture will be shown at the Palace, entitled "The Silent Enemy." It is descriptive of the life of the Indians in Canada, and some of the prominent Indians who take part in the Calgary stampede are shown. It is entirely unique and will prove highly entertaining and interesting.

On the first part of the week commencing Monday, Dennis King with Jeanette MacDonald will appear in "The Vagabond King." Paramount's all-technicolor singing romance. It is the outstanding song romance of all time with the outstanding singing star.

On August 28-29-30, "Hell's Island," with Jack Holt, Ralph Graves and Dorothy Sebastian is the bill. The colorful French Legion provides the subject for this film.

Air Mail Next Year

It is improbable that air mail will be carried across the Rockies this year, owing to arrangements not having been completed for the landing facilities necessary at various places. The hazards of mountain air travel are considerably greater than flying over the prairie sections, therefore it is unlikely the service will be inaugurated until the route is fairly well safe-guarded.

Here and There

(52)

Changes in operating organization on Canadian Pacific western lines are announced as follows:—S. H. Chown, superintendent of Saskatchewan southern lines, transferred from the Prairies to Edmonton; J. M. MacArthur, superintendent, Medicine Hat division, transferred to Revelstoke; G. J. Fox, in charge of the Kamloops division, transferred to Medicine Hat. These transfers are made in accordance with the company's policy of enabling its officers to broaden their experience in railway matters.

American golfers beat British players because they are more interested in the scientific angles of the game and are playing harder, according to Don Moon, University of Oregon wizard, interviewed at Vancouver, travelling Canada to collect material for the West Open at Chicago and the American Open tournaments at Minneapolis. He described English golfers as the best sportsmen he has ever encountered.

Seven hundred Americans about two-thirds women, toured Nova Scotia recently by Dominion Atlantic Railway. They arrived at Halifax aboard S.S. California on "A Cruise to Nowhere," the larger part of which is spent at sea. They were here for the week. There were three of these cruises during July and August from New York.

Five more new bridges are to be constructed on New Brunswick highways, tenders having been called for by Hon. D. A. Stewart, Minister of Public Works. The modern structures will be built with attendant improvement of roadway alignment. One of them will be an 80-foot span across the Little River at Grand Falls.

Since July 1 the wild rose is officially the floral emblem of Alberta. The Act passed by the Legislature at the end of session, going into effect on Dominion Day.

A quantity of cocoons will be imported into Alberta from the general state for the purpose of demonstrating the process of de-mothating the process of weaving silk and converting it into the finished product at the National Products of Canada Exhibition to be held in that city November 3-8 next.

Canadian entries in the overseas section of the British National Egg-Laying contest are holding their own with the world's best egg producers. Reports received by P. F. E. Ford, Dominion hand-standman, show it. Canadian pens hold third and fourth positions in the international contest. First place is held by France and second by Ireland.

Market prospects for fruit growers of Nova Scotia are encouraging because of the large export to Nova Scotia for the bulk of their barrelled apple supply until November 15, as a result of the embargo on barrelled fruit from the United States.

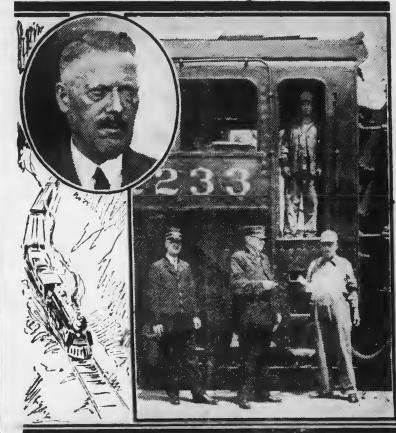

Last year a British artist publicly declared Canadian women to be the prettiest in the Empire, and now another Britisher—this time a newspaper man—claims they are the Empire's greatest beauties. It is a claim that carries on the tradition of a chaperone on a long train to summer reveals that eighty per cent are females.

Famous Frank Slide

(Continued from Page One) butes to the mining of a vertical seam of coal, which when the coal was withdrawn, weakened the support of the mass of limestone above, similar to withdrawing the foundation from a massive building.

For some time after the disaster, it was thought that volcanic disturbance had caused the slide, as there were rumbles in the mountain and for two weeks smaller masses of rock were tumbling and clouds of dust would rise. The formation of the coal seam was very peculiar, outcropping from the mountain in the usual slope common in the mountains, and then shaping a vertical course and folding back again to the usual sloping position. This vertical mining had been carried on for some hundreds of feet, following the course of the seam.

Makes His Last Run

Richard Christopher, for 50 years mechanic, fireman and loco master on the Canadian Pacific Railway, opened a throttle for the last time recently when he took his train on the run from London to Windsor, Ont. He has been selected on various occasions to handle special trains for distinguished Canadian visitors, including the Prince of Wales, Governor-General of Canada, the Duke of Connaught, and many others. It is his boast that in all these years he has never had a single accident. A distinguishing feature of his career was the fact that his son, Thomas, although also a locomotive engineer, acted as his father's fireman.

WORLD HAPPENINGS BRIEFLY TOLD

James R. Layton, of the Ontario Agricultural Development Board, died at his home, in Toronto, aged 65.

The King conferred the Order of Commander of the British Empire on Miss Amy Johnson, at Buckingham Palace, recently.

A commercial treaty between Hungary and Rumania has been signed. It is based upon the most favored nation policy.

Motor bus competition has caused the closing recently of 36 railway stations of one road in England for lack of use.

Mary Pickford, Vilma Banky, and Rod La Roque, motion picture stars, will appear in Broadway stage plays this fall.

A \$20,000,000 power development contract on the Athabasca Canyon site, 65 miles north of Cochrane, on the T. N. O. Railway, has been let to the Dominion Construction Company.

The Chinese Press reported that 1,000 persons had died in floods between Peking and Mukden. Twenty towns were flooded, 10 bridges washed out and traffic disrupted, it was said.

John A. Embry, formerly assistant commercial attaché at Vienna, Austria, has taken up his duties as United States trade commissioner for the prairie provinces, at Winnipeg. He succeeds Charles E. Brookhardt, transferred to Washington.

E. W. Sheets, of Washington, chief of animal husbandry, United States Department of Agriculture, said recently, that the drought has resulted in so much livestock being thrown on the market for slaughter that the American dollar buys more meat than at any time during the past 12 years.

Make Good Soap

Soviets Make Toilet Soap From Rats, Mice and Other Things

Who would have thought before the days of the Soviet, that dead rats, mice and marmots would provide Moscow with a popular toilet soap called "My Grandmother's Bouquet?" That is what the people of those countries are now destined for.

Soap must be made, says the Soviet, from cats and dogs, too. One cat, boiled down, gives five ounces of fat, one dog more than a pound.

The dead pets and stink pests of the community in general will yield, it is estimated, 5,000 tons of fat for soap.

Saskatchewan's Exhibit

Saskatchewan's contribution to the Canadian live bird exhibit at the World's Poultry Congress, in London, England, is made up of 32 fowl and five turkeys according to F. Hedley Aud, Deputy Minister of Agriculture. The exhibit was assembled at the University of Saskatchewan.

Canada Telephones

Latest statistics issued by the Bell Telephone Company show Canada has the fourth largest number of telephones among the countries of the world. There are 1,334,534 telephones in use throughout the Dominion, or 33.7 for each 100 of population.

One hundred and sixty-one peaks in the Canadian Rocky Mountains rise above 10,000 feet.

It is better to meet a bill than the collector later.

Mining Men Gather at the Pas

Annual Western Meeting To Be Held In Northern City

Mining men from east and west will renew old acquaintances on September 2nd, when members of the Canadian Institute of Mining and Metallurgy will gather at The Pas, on the occasion of the annual western mining meeting, which is to be held this summer in the first city of the North. Headquarters for the visitors will be a Canadian National Railways train, which will provide sleeping accommodation together with dining facilities while the conference lasts. Side trips to Sherridon and Flin Flon will be made, and the Sheritt-Gordon and the Hudson Bay Mining and Smelting Company mine interested.

Among those who have intimated their intentions of attending the meeting are: L. L. Borden, M.A., B.Sc., Assistant Deputy Minister of Mines for Canada; C. H. Attwood, Deputy Minister of Mines and Natural Resources for Manitoba; John McLeish, B.A., M.Sc., director of the Branch; A. G. G. Wilson, chief Division of Mineral Resources, Mines Branch; A. Buisson, engineer, Mines Branch; Prof. T. L. Walker, University of Toronto; R. C. Rose, editor, Canadian Mining Journal; J. McEheran, superintendent, Bank of Montreal, Winnipeg; J. D. Flock, New York; F. V. Siebert, superintendent, Manitoba and Saskatchewan Department of Natural Resources, Canadian National Railways; J. S. Morrey, Winnipeg; T. W. Edgar, Winnipeg; C. G. Young, F.R.G.S., Canadian National Railways, Toronto; J. W. Holmes, Montreal, and F. H. Edmunds, Saskatoon.

Residents at the foot of Mt. Vesuvius are alarmed as the volcano's activity increases after renewing its eruptions.

The eruptions are scarcely more than are customary during the spring activity at the most severe periods but the memory of the recent earth quake added to the dread of the natives.

The volcano presented a spectacular picture at night, as occasional tongues of flame rose to the sky.

Hope For the Blind

Work Of Royal Commission May Prove Of Great Help To Sightless

The blind people of Manitoba and Saskatchewan are looking with much eagerness to the recommendations of the royal commission now investigating their situation, said D. Baxter Lawley, worker among the blind and without vision himself, who testified before the commission on assistance given to blind people in the British Isles.

Mr. Lawley, who comes from near Manchester, is a notable example of a man who has mastered the disadvantages and sorrow that followed the loss of his vision, and now is an enthusiastic and capable worker in the interest of those who are handicapped by blindness in the fight for existence.

In December, 1913, he was blinded in a dynamite explosion in a gold mine at Headley, B.C. Sensitive of his weakness, overcome, almost despairing of the future, Mr. Lawley passed through Winnipeg during May 15th, on his way to the Old Country. He tells how, unable to find his way around, afraid to grop in the darkness into which he had suddenly been plunged, he travelled for six days and seven nights on a diet of sardines and crackers.

Seeking the aid of specialists on his arrival in England, he studied Braille in hospital, and learned to read classic Greek in Braille. In 1915 he gained a realization of the plight of blind people, and he threw himself vigorously into an effort to improve their lot. He became associated with the Society of Authors, Poets, and Playwrights, and was elected as a financial organizer and lecturer.

Later he became an official and later president for two years of the National League of the Blind, in Great Britain and Ireland, and was one of the leaders of the famous march to London, in April, 1920, of 250 blind men from Manchester, Leeds and Newport. They interviewed the leaders of the then coalition cabinet, and were successful eventually in securing substantial relief for blind people.

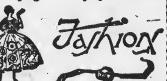

In 1923 he met Philip Layton, Montreal, a noted blind philanthropist, founder of the Canadian National Institute for the Blind and of the Montreal school for the blind, with whom he carried on a correspondence for a number of years which eventually led to an invitation from Layton to come to Canada to engage in a relief effort for the blind people of the Dominion. His home is now in Toronto. He is in Winnipeg assisting A. B. Howe, a local colleague, in connection with the investigations of the joint commission that is investigating the status of the blind in Manitoba and Saskatchewan.

Discussing the work of the commission, Mr. Lawley said he had been much impressed with its progress thus far, and was convinced that it could not have been undertaken at a better time. Its findings would have an effect on every province in Canada, and eventually would influence the Federal Government. He predicted an improvement in the lot of the blind as a result. —Free Press.

Isolates Goitre Germ

American Physician Makes Important Announcement To Paris Gathering

The theory that goitre is a germ disease and not caused by deficiency of iodine, as claimed by physicians during the past 50 years, was advanced by Dr. E. O. Houben, of Tacoma, Wash., in a speech before the first international Microbiology Congress at Paris.

Dr. Houben said he had succeeded in isolating the goitre germ during experiments conducted over a period of five years, and that he had proved that it was possible to cure cases with vaccine if caught in their early stages.

Fifty microbiologists representing 29 countries were present at the session of the congress; at which Prof. Jules Bordet, director of the Pasteur Institute, of Belgium, presided.

Did you ever notice that those who know the least are the most liberal in handing out advice?

VESEVIUS ON RAMPAGE

SUNDAY SCHOOL LESSON

AUGUST 24

JONATHAN AND DAVID—A NOBLE FRIENDSHIP

Golden Text: "He that maketh many friends doeth it to his own destruction: but there is a friend that sticketh closer than a brother." Proverbs 18:24.

Lesson: 1 Samuel 18:1-4; 19:1-7; Chapter 20; 2 Samuel 1:17-27.

Devotional Reading: 1 Corinthians 13:4-13.

Explanations and Comments

The First Meeting Of The Two Friends, 1 Samuel 18:1-4. — David's victory over Goliath not only brought about the defeat of the Philistines, but gained him a position at court and the devoted friendship of Jonathan, Saul's son. Abner, the captain of the army, brought the news of Goliath's death to the king's presence and Saul would not let him return to his father's house. Jonathan was present at David's coming, and the two friends were soon joined up between the two. They made a covenant, exchanging presents.

Nothing was too good for Jonathan, nor did he care enough for his love David as his own soul; sparing off his own robe he gave that and all his apparel even to his sword. Jonathan said to David, "As the Lord liveth, David was to David's interest to love Jonathan, but far from Jonathan's interest to love David. Yet Jonathan, to his own shame, said he was an absolute spendthrift for the sake of love."

"From beginning to end, the love of Jonathan for David was a divine masterpiece in the act of friendship, in the depth of devotion.

In every outreaching of a protective hand, he was stripping himself bare, ready to give him all he had.

"The pure gain of friendship is just the knowledge of a noble soul. That was what Jonathan felt. David was Jonathan's heart in the day when he stood beside him in the riches of his regal nature—that day when Goliath was slain. David was a divine gift to the grandest man of Israel, a noble example of beauty, courage and skill, and all his qualities were adorned and set off by his humility. We need the personal history of that friend, for you are very apt to think that David was the gainer, for Jonathan was a perfect mirror of tenderness, and we never weary of admiring him for the interests of his friend, yet I conceive that that would be false judgment. I am certain of this, that David was the gainer, for he received David as he was, not the man who has most of what is external to give." —James Stalker.

Will Muddle Through

Great Britain Will Overcome Present Era Of Depression

It is not the first time Great Britain has been forced to overcome a depression and as in the past, the mother country will overcome the present era of industrial and labor depression, said Walter Citrine, general secretary of the British Trades Union Congress, who was tendered a civic reception and dinner in Toronto.

Great Britain has retained a full share of world trade throughout the period of depression, he stated, and because of labor resiliency, has actually fared better than many other nations.

Johnny, what are you doing in the pantry?

Johnny—Oh, just putting a few things away.

Celtic graves 2,000 years old have been found at Pecs, Hungary.

PILES

"Pain stops like a flash!"

"...nothing helped. Then I took Piles away. And it is gone. E. C. Avery, Instant relief. Piles vanish. Avoids knife. All druggists have it."

Mammoth Seaplane

Consolidated Aircraft Corporation Has Plans For Plane To Carry 100 Persons

Construction of a seaplane, large enough to carry 100 persons across the Atlantic ocean, will be started at Buffalo shortly, it was announced by Major R. H. Fleet, president of the Consolidated Aircraft Corporation.

The plane, powered by 16 Curtiss Conqueror motors, will be equipped with gasoline storage tanks to carry fuel sufficient for a flight of 1,000 miles.

Passengers will be able to enjoy a 200-foot stroll along a promenade on the ship, Major Fleet said, and there will be 62 staterooms with specially constructed walls to keep out the roar of the motors.

Fine Organ In Nova Scotia Hotel

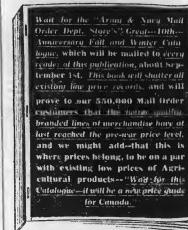

Most Magnificent Instrument Is Installed In New C.N.R. Hotel At Halifax

One of the most magnificent organs in Canada is a feature of the new Canadian National Railways hotel at Halifax, the Nova Scotian. It was built by Casavant Freres, St. Hyacinthe, Quebec, and is playable from a separate cabinet made by the Aeolian Company, with which Duo Art records reproduce the playing of noteworthy organists. The organ has three manuals with a range of thirty stops for the swell, pedal and choir. The action is electro-pneumatic.

Fine Paper Made From Rope

Paper of the most delicate kind can be made from old tarred ropes. It is used in the potteries for transferring the various patterns to the earthenware, and is strong so that a sheet twisted by hand will support a weight of one hundred pounds or more.

Miss Mabel McKay of Kimberley is visiting Miss Kathleen Miller.

Miss Veronica Janostak is home for her vacation from Sacred Heart training school, Spokane

Ed. Lediou and J. Sherratt enjoyed a few days holiday fishing at North Fork.

Mr. and Mrs. John Watson returned on Monday from two weeks holidays at Vancouver.

James Hatfield, formerly of Coleman, was killed in the mining disaster last week at Coalmont.

Leslie Griffiths left on Wednesday night for Macleod where he will resume his duties as a trainman for the C.P.R.

Miss C. Plante of Gleichen spent two weeks here visiting Mr. and Mrs. J. Plante, and enjoyed her stay in the mountains.

Wm. Burrows, R. Penman, Edger Thomas and J. Duncan spent the week end at North Fork and caught some fine speckled trout.

Miss Jean Pattinson has been appointed as teacher at Olin Creek school in the district north of Coyley.

The Hit of the Year! The musical romance supremo "The Vagabond King" Master of m'lody—king of color!

Mr. and Mrs. C. J. Devine motored to Lethbridge and Claresholm for the week end to visit friends.

Showers during the week have cleared the air and the mountains stand out very clearly in the bright sunshine for which Alberta is famous.

Car accidents are becoming so frequent that they cease to be news unless somebody is killed or seriously injured. And 99 per cent of the accidents are the result of carelessness. Safety is sacrificed for speed.

Mrs. Mathew Wilson, Mrs. Arthur Wilson, James and Robert, and Mrs. Gillies, motored to the coast cities last week. While in Seattle their car was stolen whilst standing on the street, but fortunately they discovered it after an all-day search, standing in a garage. The man who turned it in took it by mistake, according to his statement.

A summary of results of Departmental examinations of Coleman schools will be published next week, being held over from this week's issue.

Mr. and Mrs. J. A. McDonald of the Empire hotel, Mr. C. J. Tompkins of Blairmore, and Dr. and Mrs. Tompkins of Antigonish, N.S., motored to Banff and Lake Louise, returning via the Windermere highway.

The mayor of Crows Nest was in town this week, in the company of another familiar figure of bygone days, who came in on a freight train. They were given the freedom of the city as long as they remained sober.

Mr. A. Melville Anderson, Optometrist of Anderson and McLean, Sight Specialists, 224-8th Ave. W. Calgary, wishes to announce his regular visit to G. R. Powell's office on Wednesday, September 3rd. Each visit a personal one assures you of satisfaction.

Mr. and Mrs. A. B. Elliott, of Grand Prairie, visited last week at the home of Mrs. Clifford and daughters, Sixth street. Harry Clifford, Mr. Elliott and J. Roulier climbed Mount Nest Mountain, and this was Mr. Elliott's first visit to the mountains, with which he was greatly impressed.

The annual picnic of the Rod and Gun Club for members and their families will be held at Crows Nest Lake on Sun. Aug. 24. Carr will leave the town hall from 9 to 10 a.m. Those wishing to take part will give their names to the committee, A. Phillips, A. McCulloch, R. Penman or T. Jackson. Bring your lunch baskets.

Some go into debt to indulge in pleasures, but usually the happiness so obtained is but a brief spell. Greater happiness is obtained from attending to "first things first." When it comes to a choice between debts and pleasures, there should be no hesitation in deciding. An observance of the golden rule would be the right line of conduct.

Driving his car down the hill from McGillivray offices to West Coleman on Sunday evening about 8 o'clock, John Stokulak was run into by a car bearing a British Columbia license containing two men. The provincial police were notified, and arrived on the scene very quickly taking full particulars and the men were taken to Blairmore for further questioning.

FURNITURE FOR SALE—Apply to A. E. Graham, west of Fire Hall.

Board of Trade Activities

H. T. Halliwell and W. L. Rippin, president and secretary respectively of the Board of Trade, called on the business men last Friday afternoon for their annual membership fees of \$2.00 each member. The greater part of the money raised is to defray Coleman's \$60 share of the cost of the Red Trail route folder maps, 20,000 of which are published and distributed under the direction of Lethbridge Board of Trade.

Membership Roll

The following were enrolled as paid-up members for the Board of Trade for 1930:

S. Klecko, E. Lediou, W. Bell,

S. Janostak, N. P. Eastwood, A. L. Watkins, J. Michalsky, A. Oliva, F. Celli, J. Rushton, W. Dutil, D. Gentile, J. Wood, F. H. Graham, F. G. Graham, G. R. Powell, Jas. M. Allan, Mrs. Ferguson, R. Laulet, C. Nicholas, Coleman Garage, N. Bortnick, A. E. Guerrard, H. C. McBurney, Coleman Cafe, O. E. S. Whiteside, G. Kellof, G. Patterson, G. R. Neil, S. Moore, H. T. Halliwell, W. L. Rippin.

The secretary, W. L. Rippin, would be pleased to issue membership tickets to any enterprising citizen who wishes to become a member and so help the Board to finance its activities for the general welfare of the town.
